

MEDIA AVAILABILITY: New research reveals Houston's young drive drugged

October 22, 2020

FOR IMMEDIATE RELEASE

Dr. Peter Stout, the Houston Forensic Science Center's CEO and president, and the Houston Police Department, will present research to be released Thursday regarding impaired driving in Houston. The findings will be published Thursday in the Journal of Analytical Toxicology.

RESEARCH WILL BE RELEASED AT 9 a.m. CST Thursday October 22.

WHEN: 10 a.m., October 22, 2020

WHERE: 500 Jefferson St., C Level

Houston, Texas 77002

Due to pandemic restrictions, all media will be required to have their temperature taken before entering the facility and wear masks at all times. Following the news conference, one TV camera and one still photographer will be permitted to enter the laboratory following as pool media.

HFSC is a local government corporation that provides forensic services to the City of Houston and other local agencies. HFSC is overseen by a Board of Directors appointed by the Mayor of Houston and confirmed by the Houston City Council. Its management structure is designed to be responsive to a 2009 recommendation by the National Academy of Sciences that called for crime laboratories to be independent of law enforcement and prosecutorial branches of government.

HFSC operates in seven forensic disciplines.
